*Original Works*

## An Independent Perspective

Though business owners traditionally regard the annual audit and preparation of annual accounts as a 'necessary evil', uniquely Bryden Johnson takes the opportunity to add real value. Our role extends beyond that of a pure audit in that we aim to work with clients to identify opportunities for improvement and new possibilities for growth.

### Credibility and Assurance

An audit is a credibility statement as to the reliability and quality of your financial statements. You gain an independent and objective opinion, carried out on a test basis, to provide reasonable assurance that they are free from material mis-statement.

### Added Value

Besides helping you meet statutory requirements, we also conduct a review of your financial and management systems. This can often result in us identifying potential problem areas and recommending opportunities to improve your business performance. We discuss the issues openly and help you implement agreed solutions.

### Who Benefits

Our Audit service is designed for Small to Medium sized companies. We also help regulated businesses that require an audit, regardless of size criteria, such as solicitors and insurance brokers.

### Forward Planning

The pre year-end audit and tax-planning meeting enables us to identify tax saving opportunities for our clients and facilitates the overall efficiency of the audit process.

### Agreed Timetable

With Bryden Johnson you don't have to worry constantly about the 'meter running'. We provide certainty and comfort to our clients by offering fixed price agreements for our professional charges and agreed delivery timescales. We aim to turn round all audit assignments within a six week period and, furthermore, within 2 to 3 months of the company's accounting period end.

### On-Going Support

Our specialist areas of expertise, including business coaching and financial services, allow us to provide a role beyond that of a pure audit. We are keen to develop a long-term relationship with your business for mutual benefit. We believe you'll find our individual approach refreshing.
