Original Works

State of the Art Service

Ensuring all members of your staff are paid on time, whilst complying with Inland Revenue requirements and other legal obligations, is a major task. Our fixed fee payroll service takes care of all your problems easily – giving you one less time-intensive compliance issue to worry about.

Specialist Payroll Team

Our team provides a comprehensive and cost-effective service, processing all of your weekly/monthly payrolls and ensuring that the wages are correct and paid on time.

Flexible Service

We can handle every aspect of your payroll activity and have the ability and willingness to change and re-run payrolls mid-month if required. We'll produce customised, detailed reports and payslips. And will even liaise with the Inland Revenue on your behalf where necessary. Everything is handled quickly and efficiently, from the production of Annual Returns and filing on-line to supplying P45's, P46's and P60's.

Leading Edge Technology

We use the Star Professional software platform, which has been accredited by the Inland Revenue. We are also a BACSTEL-IP user, putting state of the art software to work for your benefit.

Peace of Mind

We process your payroll and related taxes quickly and efficiently. The combination of the skills of our Payroll Specialists and our leading edge technology relieves you from all your payroll worries - so you're no longer diverted from what you do best.

Time Savings

Bryden Johnson's service provides complete freedom from mundane payroll-related tasks. Using your existing data, we process your payroll, prepare and file your tax information. Subtract the time it takes to do all this from your work hours and you'll soon see the savings.

Compliance Protection

Keeping up with PAYE, national insurance, statutory sick pay, statutory maternity pay and the frequent and complex HR and Payroll Tax law changes is a headache for the unwary. We make certain that your staff are paid on time whilst complying with Inland Revenue requirements and other legal obligations. We simply couldn't paint a brighter picture.
